VLT® Integrated Servo Drive ISD 510

## VLT® Integrated Servo Drive ISD 510

This servo drive system is ideal for demanding applications in the food, beverage, pharmaceutical and packaging industries.

### Simple and fast

Installation is simple and fast, with pre-configured hybrid cables in a daisy-chain concept. The servo system comprises VLT® Servo Access Box (SAB®), central power supply, decentral drive modules and cabling infrastructure. Depending on the application, the SAB® can power up to 64 drives in a servo drive system.

### Highly flexible

Decentral motion sequences enable scaling of the system size independently of the controller. Program the master via IEC 61131-3.

### Power range

300 V DC .....nom. 1.7-3.7 Nm  
/max. 6.2-13 Nm  
565–680 V DC  $\pm 10\%$ ...nom. 1.5-3.8 Nm  
/max.6.1-13 Nm

### Fieldbus

CAN

### Enclosure
